

Lesson 7 – Websites II

Task:

- Finish *a website* according to the instructions from the previous lesson.
- Use **relative references** for links between pages and sources of images:
 - <https://www.coffeecup.com/help/articles/absolute-vs-relative-pathslinks/>
- Make all the webpages **valid** according to HTML5 standards:
 - <https://validator.w3.org/>
- Make the final site accessible via your **www** folder on NAS:
 - Access the page via these links (don't forget to replace **NameSurname** with your **login**):
 - unsecured HTTP protocol:
 - <http://gymeske.synology.me:1080/~NameSurname/index.html>
 - secured HTTPS protocol:
 - <https://gymeske.synology.me:1443/~NameSurname/index.html>

Optional:

- Add vector graphic elements to your web using either:
 - HTML Canvas: https://www.w3schools.com/html/html5_canvas.asp
 - Scalable Vector Graphics (SVG): https://www.w3schools.com/html/html5_svg.asp
- Add multimedia files to your web:
 - Video: https://www.w3schools.com/html/html5_video.asp
 - Audio: https://www.w3schools.com/html/html5_audio.asp
 - YouTube: https://www.w3schools.com/html/html_youtube.asp
