Lesson 3 – HTML Text Elements

1. Headings:

- https://www.w3schools.com/html/html_headings.asp (+++ excercises)

2. Paragraphs:

- https://www.w3schools.com/html/html_paragraphs.asp (+++ excercises)

3. Semantic formatting:

- https://www.w3schools.com/html/html_formatting.asp (+++ excercises)

Task – Publishing your HTML webpage online:

- Make your webpage (from the previous lesson) available through the NAS **webserver**.
- Copy both files (the **html document** and the corresponding **image**) to **www folder** in your home directory:

- Rename the html document to **index.html**
- Access the page via these links (don't forget to replace **NameSurname** with your **login**):
  - unsecured HTTP protocol:
    - http://gymeske.synology.me:1080/~**NameSurname**/index.html
  - secured HTTPS protocol:
    - https://gymeske.synology.me:1443/~**NameSurname**/index.html

- Try to access the page from your classmate's computer (without being logged in to the NAS).
- Try to access the page from home 😊
